Questions T12 and T14 of the FAQ deal with a couple of aspects of
plotting to postscript devices. If we need another entry dealing with
the specifics of this, I'll put it in. Otherwise, I feel that the info
in the IDL reference manual and the FAQ cover it sufficiently.

The FAQ is posted on or about the 20th of every month to this group and
the news.announce group. The latest version can be found (officially)
at eos.crseo.ucsb.edu in /pub/idl and (unofficially) at rtfm.mit.edu.
