You're using an INT array, yet int numbers must be in range [-32,768, +32,767].
Try using LONARR instead of INTARR or even ULONARR if you know you can't have negative values.
Signed long numbers can go from -2 147 483 648 to +2 147 483 647.

(See IDL Help : IDL Data Types)
