<HTML>
hi,
<P>i am just wondering if anyone knows how to do an autocorrelation (much
like the A_CORRELATE procedure for vectors) on a 2-D image array?
<P>i have tried writing my own routine using the fft procedure, but the
array that i get back is complex and i am fairly certain i am having problems
with symmetries.
<P>any help would be *much* appreciated!
<P>thanks,
<P>tracy
