Subject: PV-Wave on SGI O2

We are thinking to buy several SGI O2 machines which run
IRIX 6.3. I'm wondering if any of the readers here have
SGI O2s and are running PV-Wave advantage. I've checked
the VNI website and talked to VNI technical support and
learned that VNI supports IRIX V6.2 officially but not
V6.3 yet. Techsupport reports a minor gotcha installing
Advantage on a V6.3 machine which is surmountable.

However, I'd feel much more secure about my pending
purchase if someone could report that they are running
Wave on their O2 with good results.

What say you?

Matt
