Subject: Re: Different Platforms
Posted by Karsten Rodenacker on Thu, 20 Nov 1997 08:00:00 GMT

Following the track of arguments I am surprised not to see any hint
concerning resources of the windowing system.

I experienced the bizar behaviour too, even on ONE unix platform using
either idl in command mode or by idlde. If we could learn a bit more
about ajusting the Idl and Idlde window system resources I think most of
the problems mentioned will disappear.

Regards
Karsten
