IDL 3.1, Sparc2 Sun4 keyboard, SunOS 4.1.2, Openwindows 3

What do I wrong?

The following statement doesn't have any effect to the keyboard translation on my Sparc2:

```
IDL> setup_keys  
IDL> define_key, 'r4', 'plot,'
```

```
IDL> <pressing r4>
```

nothing happens ...

Thanks for any hint!
