Subject: Dynamical update of sharable library

Posted by morisset on Fri, 16 Jan 1998 08:00:00 GMT

Hello,
I'm using CALL_EXTERNAL to let Fortran make some
work. When I need to modify a procedure of the
library, I recompile it, but the procedure
known by IDL doesn't seem to be updated.
Is there any way to let know IDL that the
library is to be re-load.?
