We expect to soon have a part-time (>20 hours per week for at least 6-12 months) position for an IDL programmer. This person must be in the Baltimore/Washington area. The salary is expected to be in the range \$15-20 per hour, though there is some flexibility for exceptionally qualified applicants. Individuals with image processing experience seeking full-time postdoctoral positions would also be considered. Please send inquiries to jan.hoh@jhu.edu.
