Hi Folks,

Several people have contacted me recently to offer extremely helpful suggestions for what they would like to see in an Image Processing with IDL book. I have my own ideas for the book, of course. But as my wife sometimes points out to me, my ideas are often flawed.

In any case, this is the time and your opportunity to greatly influence the writing process. Once I get up a head of steam it is way too late. Any and all suggestions are more than welcome.

Cheers,

David
