Many. For general purpose usefulness, however, I don't think there are many better than Ray Sterner's site at Johns Hopkins Applied Physics Lab:

[http://fermi.jhuapl.edu/s1r/idl/s1rlib/local\\_idl.html](http://fermi.jhuapl.edu/s1r/idl/s1rlib/local_idl.html)

You can find other good sites by following the links from my web page and many others.
