Subject: Newbie-Questions: PV-WAVE

Hi there!

1.) Is there a FAQ for PV-Wave available?

2.) Can anybody recommend GOOD programmer's books for PV Wave (the online manual certainly isn't)

3.) Has anybody some experience with using the DCT command for image processing in PV Wave. Following the online examples does not give the correct results. Is this a bug or do you have to use some tricks to get this command running?
