In article <9306290949.AA06550@tigermoth.aero.gla.ac.uk.gla.ac.uk> gnaa38@aero.gla.ac.uk (Paul Porcelli) writes:

Are there any facilities in Dos to convert a binary file to the XDR binary format.

I am receiving binary data from a PC which i would then like to process on a Unix(Sun) Workstation using the IDL software.

Any advice will be very welcome.

Well, you could get IDL for Windows, and then either write out an XDR file or a netCDF file...
