Subject: setting up axes in IDL Posted by Tony Casey on Sun, 14 Jun 1998 07:00:00 GMT View Forum Message <> Reply to Message

OK, I'm ust learning, here's my problem:

I have an output file in "TVSCL" type, and some lines drawn with "PlotS" I need to set up an axis system with ticks and such centered in the middle of the output. Please help. caseyta@mail.auburn.edu
