Subject: resetting structs Posted by don shad on Thu, 23 Jul 1998 07:00:00 GMT

hi,

(it has been a long road just getting a message to post to the news group).

how does one re-declare a struct in the IDLDE? if i create

struct = {junk, data:0}

but later decide that i want to do

struct = { junk, mydata:0 }

i either get an error (if in the ide commandline), or if i do this in a "junk__define.pro" and use a ".compile junk__define.pro", i get no change in my structure. this has caused no end of pain for me.

i have been unable to find any help from either the FAW or the documentation on this problem (^R doesn't do it either).

any help would be much appreciated.

thanks very much,

don schad hydrogual.com
