The site mentioned above has long gone. A good start page is

http://www.mpae.gwdg.de/mpae_RZ/software/idl/

You can reach the official archive is at the following addresses:

<ftp://pivory.mpae.gwdg.de/pub/idl/emacs/>

<http://pivory.mpae.gwdg.de/idl/emacs/>

http://www.mpae.gwdg.de/mpae_RZ/software/idl/emacs/

As I hardly know any Emacs Lisp myself, I am simply providing this site to keep the IDL Emacs mode available. So here comes my regular call:

If you know some Emacs Lisp (or you are willing to learn it) and you would like to maintain these files, feel free to give it a try!

(I have some ideas of things to be changed ... ;-)

Best regards

Kevin
