Chuckle, I already know that. Unfortunately, GeoTIFF was specified before
I was part of the project. It does seem like one of the formats I'll need
to be very familiar with in the future, so I might as well get a handle on
it now.

Thanks. This seems to be the same person that handled the site pointed to
from NASA judging by the ~ritter name.

Thanks, Rich. I would appreciate the IDL routines if you can spare them.
I'll pass along any changes I need to make.

Regards,
