Mike,

Whatever you do, DON'T start playing with GeoTIFF, you'll be in for a few headaches.

Anyway, for GeoTIFF formats look at :

<http://home.earthlink.net/~ritter/tiff/>

or have a look at the adobe site and search on geotiff

<http://www.adobe.com/supportservice/devrelations/resources.html>

Sorry got to dash, if you need some more info, I have some basic routines for reading simple geotiff, these may be of use... e-mail me later.

Rich.
