Hi Folks,

> am having a spot of bother with smething that should be really  
> simple. I cannot get FOR ....DO BEGIN ENDFOR loops to work.

This question reminds me that I have several books that are "factory seconds"--books that are slightly blemished in some way. I always feel guilty charging full price for these books, so I have been selling them to students at greatly reduced prices. If anyone is interested, contact me. There are almost always one or two hanging around.

Cheers,

David
