Visualization / Graphics / Imaging Software Development House Expanding

Twenty million dollar graphics / visualization software development house located in beautiful Colorado is GROWING. The company has had exceptional revenue and profit growth over the last several years, and is expanding its product base through new development, joint ventures and acquisitions. The company has a solid 20 year track record, and is still privately held with a great outlook for the future. The company is located in a University town North of Denver, Colorado.

The company offers competitive salaries, great medical benefits, matching 401k program and an excellent location to live.

The company is currently looking for the following employees:

- 1) Software Product Marketing Manager - Medical Imaging Software
- 2) Software Product Marketing Manager - Geosciences
- 3) Software Product Marketing Manager - Image Processing / Data Visualization
- 4) Software Product Marketing Manager - Academic Programs
- 5) Technical Sales Engineer - Image Processing / Data Visualization
- 6) Program Manager - Software Development
- 7) Sr. Windows Software Engineer
- 8) Object Oriented Software Developer
- 9) Windows GUI / COM Software Developer
- 10) Graphics Software Engineer
- 11) Display Algorithms Developer
- 12) DICOM Developer
- 13) Network Developer
- 14) Medical Applications Specialist
- 15) SQA Manager
- 16) SQA Test Programmer
- 17) SQA Release Engineer
