Hi all -

It took em a couple extra days because vacation time kept interfering with
my work :-) I'm heading home from Boise to California tomorrow and
finished up the changes to my IDL Style Guide tonight. It is available at
my web site, which is http://www.ivsoftware.com/. Just follow the IDL
Style link. Please feel free to provide any feedback to make this a better
or more complete guide.

Best regards and best wishes to all in the new year.
