I have used Spyglass Slicer, Transform and Plot and still am. I like Spyglass's Slicer a lot. IDL's 'Slicer' is similar to Spyglass's except Spyglass is much sophisticated and user friendly. Hope RSI will be influenced by Fortner to come up with some comparable QUALITY applications using IDL and the users don't have to pay an arm and leg for the product(s). Spyglass caused about 1/4 of that of IDL.
