Subject: Re: Unsupported X Windows visual Posted by Mike Corcoran on Fri, 19 Feb 1999 08:00:00 GMT View Forum Message <> Reply to Message

Hi Harald,

could you tell me how you did this fix, exactly? I've been getting this error

- > % Unsupported X Windows visual (class: StaticGray, depth:0)
- > % Substituting default (class: <UndefinedVisual>, Depth:0)

too (though I get it when I try to remote display to a mac running the MachTen X-server and KDE)

thanks

Mike
