Hi,

I was wondering if anyone knows if IDL comes with any postscript fonts that has math symbols - like integral signs and so forth.

I know that the hearshey fonts have math symbols and that there is a postscript font for greek symbols, but I haven't been able to locate the purely math symbols for postscript. I'd really like to find these fonts for postscript, because the hearshey drawn math symbols don't look that great when they are printed out. If IDL doesn't have the math font does anyone know of any adobe math fonts available via ftp? Any help would be greatly appreciated.

Thanks.
