Hi,

Is there a simple way to get the index of the array B data in array A ?

For example : A = [10,20,30,40,50], B = [10, 20, 33, 10, 30, 40, 9]
I want like to get the index array of B in A [0, 1, -1, 0, 2, 3, -1]

Thanks.

Gary
