Hi,

I am looking for some help. I am working on my Ph.D. in EE at WVU. I am looking for any code that will do the Mellin Transform. I don't care if the code is in C, C++, Matlab, or IDL. Does anyone know where I might find such code? Please post your message to this newsgroup and if possible send me email directly, too.

cwgregory@aol.com

Thanks.

Chris Gregory
