Subject: directory selection

Posted by Waleed on Fri, 09 Apr 1999 07:00:00 GMT

Hello again.
With dialog_pickfile, you have the option to create a new
directory (on ms windows at least). But with the /directory
option to select a directory, we don't get the same option when
we most need it. Do you know of a way around this?

Thanks

Waleed
