<http://www.sstreams.com/IDL/>, a new service brought to you by e-NoteBooks.

and scientists developing technical software solutions in the industry and education by using high-level programming languages and environments.

link, and the "Modify" button to edit a link submitted by somebody else.

Links are categorized in 7 groups:

Books: IDL related books and publications

Business: Companies specialized in IDL consulting and development or any business related resource

Jobs: Open positions requiring IDL programming skills

Programs: IDL applications and libraries (commercial and freeware)

Resources: Web sites, mailing lists, ftp archives

Skills: home pages or resumes of IDL developers

In order to enhance the visibility of your site on the web and boost your traffic, you can submit self-centric links pointing to your company, software, or home page. You can add a "Rate it @ SStreams" button on your site to help your visitors support you. Achieving high ratings from numerous voters is a very effective marketing tool.

You are also encouraged to support valuable web sites by sharing your favorite links with our community by rating existing entries of our directory.

to promote technical computing web sites. For more information about
