Hi folks,

I'm looking for an efficient way to produce the matrix of type (I would like to be able to avoid the FOR statement)

```
0 1 0 1 0 1 0 1  
1 0 1 0 1 0 1 0  
0 1 0 1 0 1 0 1  
1 0 1 0 1 0 1 0
```

OR

```
1 0 0 1 0 0 1  
0 1 0 0 1 0 0  
0 0 1 0 0 1 0  
1 0 0 1 0 0 1
```

ETC.

Best regards,

Tri.
