<HTML>

<BLOCKQUOTE TYPE=CITE>Can anyone tell me what the purpose

structure might be? It doesn't seem like the

can't destroy them and re-fill them with new

A few examples on the use of a non anonymous structure can be found in the `idlhelp`.

and I think the non anonymous structures are useful from the point of view of the architectural design.

<BLOCKQUOTE TYPE=CITE>Sometimes.. i just want to pinch IDL.</BLOCKQUOTE>
