Subject: looking for some software to convert idl format data to text
Posted by Helin Wei on Wed, 11 Aug 1999 07:00:00 GMT

Hi,All

I have to convert some data which is saved in IDL format
by other group using the full version of IDL to text format
or normal binary format. We have not IDL on our local machine.
Is there any other software that can do this conversion? Can student
version of IDL do this job? Thanks.

Regards

Helin Wei
