Subject: Draw STREAMLINES
Posted by gbah on Mon, 28 Feb 1994 05:36:32 GMT

I have a set of velocities U(i,j), V(i,j) data
generated from a Fortran code. I'll like to plot
the STREAMLINES of the flow. Could someone show
me where to find a routine to do it?
Thanks.
        Messon.
