Hi Folks,

It's a long story and too embarrassing to go into, but my IDL 4 Example Program archive got accidentally deleted from my FTP site a couple of weeks ago. :-(

I'd like to restore the darn files because--believe it or not--there are quite a few people still using IDL 4, but I don't have them on my current machines. I probably do have them on an ancient Mac I retired a couple of years ago, but that machine decided a week ago that it was too tired to boot up anymore. (It feels about young kids and games the way I feel about young kids and tennis racquets.)

So, is there anyone here who maybe downloaded the files in that ancient archive and who could send them to me? I'll send a book (if you don't already have one) to the first person who responds. :-)

Cheers,

David
