Subject: IDL and TCL interaction

Posted by John Hoar on Wed, 15 Sep 1999 07:00:00 GMT

Do Somebody fulfill to use IDL (Runtime-License 5.1) and TCL 8.0 together (Using expect Tk to perform the comunication between the two languages)?

Application Description:
   TCL widgets that, on user request, execute IDL routines using expect

Tk.

Enviromnt:
   Unix Sun Solaris
   TCL 8.0
   IDL 5.1 (Run-Time License)

We wait the answer as soon as possible, Thanks a lot, bye
