Dear Sir,

I am using the SPAWN of IDL, while I am using this function well in Windows95, the program fall to work well in windows98, with the information of:

There are not enough system resources available to run this program,
....

The program is:

```
pro spawn_test
```

```
ee=0
```

```
for i=0,10000 do begin
```

```
for j=0,10000 do begin
```

```
for k=0,10000 do begin
```

```
ee=ee+1
```

```
print, ee
```

```
    SPAWN,'C:\xiaom\renjie1\mi-4\rotation2'
```

```
endfor
```

```
endfor
```

```
endfor
```

```
END
```

where "rotation2" is a win32 console application program.
would you please configure out what is the reasons of
this problem.

I am with Dr. Narayana, Radiology Dept., Univ. of Texas Medical School
at Houston, we are licensed user, please send your anwser to:
