Hello

I have some problem with the option /follow when
I use the "contour" procedure. The upper levels
are not trace !!!

for exemple:

```
IDL> a=dist(10)
IDL> v=0.5*findgen(20)
IDL> contour, a, levels=v
IDL> contour, a, levels=v, /follow
```

if someone know why the /follow give this strange effect ??!!

Alain
