idlusers-news-gateway:

There was problem in the idlusers-mailing-list -> news-group gateway
program, the following message was truncated, sorry... Thomas

Follow up to group or reply directly to:
     VERHEYEN%BMLSCK11.BITNET@CEARN.BITNET

We're using IDL on a DEC 3000/600 AXP workstation since 1 month,
mainly for the processing of satellite images.
We were wondering if there is someone out there who is familiar with
the PLATE CARREE projection and has already used it in IDL.

Many thanks in advance.

Yves
