Subject: Re: Object graphic 3d Scatterplot Posted by Gapelyuk Andrej on Thu, 23 Mar 2000 08:00:00 GMT View Forum Message <> Reply to Message

Thanks a lot for everyone who help me to understand how to produce scatter plot in object graphic, especially for nice example from David. It works fine and fast for my data sets (several hundreds). The only disadvantage which I can see that all symbols are flat and non symmetrical in 3d, I would be prefer small

already not so important.
