Subject: Built-in date / time routines

Posted by Andy Loughe on Tue, 18 Apr 2000 07:00:00 GMT

I have inherited code which utilizes these built-in IDL routines:
   var_to_dt
   dt_subtract
   dt_to_var
   dt_add

Would someone please tell me what happened to these?
This time I could not even find them in the obsolete directory.

Thanks, as always, for your help.
