> yr = (xx - a[4])*SIN(a[6]) + (yy - a[4])*COS(a[6]) ;Rotate y
```

should be

```
xr = (xx - a[4])*COS(a[6]) - (yy - a[5])*SIN(a[6]) ;Rotate x
yr = (xx - a[4])*SIN(a[6]) + (yy - a[5])*COS(a[6]) ;Rotate y
```

but it doesn't fix the problem.
