Thanks for the tip
so far, but now I got a problem with creating the header. Is there a dialog
for selecting the projection parameters, e.g. 'Gauss Kruger Zone 2', or
do I have to write a dialog on my own? In ENVI's menue irregular points
to grid is such a dialog present.

Any ideas?

Joerg</blockquote>

<p>
....sure ;o)

why don't you try with widget_map ENVI widget?

in auto_manage it is very simple to handle it.
<p>best regards,

          Nando.
