Comparing Paul's solution to mine I found a typo in my previous post:

```
> i = REBIN(REFORM(FINDGEN(n),n,1,1),n,n,n)^2 ; x^2
>
> a = i + $                ; x^2
>
>   TRANSPOSE(i,[1,0,2]) + $      ; y^2
>
>   TRANSPOSE(i,[0,2,1])      ; z^2
>
      ^^^^^
```

should read [2,1,0]
