Subject: Re: Need Help with PRINTER Problem
Posted by promashkin on Mon, 21 Aug 2000 07:00:00 GMT

I did yet another test. I can't save to .ps from dialog_printersetup(),
but I can from dialog_printjob(). So I made a .ps file through Phaser
840 color laser jet driver, and it has 200 shades of pure gray. No yellow.
Cheers,
Pavel
