It is even easier than that:

If you want to display an " $\ddot{\imath}$ $\dot{\imath}$ $\dot{\imath}$ ", " $\ddot{\imath}$ $\dot{\imath}$ ", " $\ddot{\imath}$ $\dot{\imath}$ ", or " $\ddot{\imath}$ $\dot{\imath}$ ", which are German Umlaute, than you may just enable the /ISOLATIN switch of your PS-device and you can print strings including them, like "Hofbr $\ddot{\imath}$ $\dot{\imath}$ $\ddot{\imath}$ 2uhaus".

have fun!
