It is even easier than that:

If you want to display an "i $\frac{1}{2}$ ", "i $\frac{1}{2}$ ", "i $\frac{1}{2}$ ", or "i $\frac{1}{2}$ ", which are German Umlaute, than you may just enable the /ISOLATIN switch of your PS-device and you can print strings including them, like "Hofbr $\frac{1}{2}$ uhaus".

have fun !
