APPLICATIONS PROGRAMMER

Xenogen Corporation, a biotech company in the San Francisco Bay Area, is

seeking an Applications Programmer. The successful candidate will be responsible for developing and maintaining scientific software related to the company's bioluminescent imaging technology. Qualifications include a minimum of a B.S. in physics, engineering or a related discipline and a minimum of three years scientific programming experience in one or more high level environments (e.g. C++, MatLab, Igor, IDL). Experience with WaveMetrics Igor is preferred. Demonstrated expertise in design of user friendly interfaces for the performance of complex tasks is highly desirable. Good written and verbal communication skills required. Must have ability to work in team-oriented environment.

Fax or mail resumes to:
