The ESRG site seems to be in the throes of an equipment relocation exercise. They have recently changed the site from esrg.ucsb.edu to eos.crseo.ucsb.edu and expect to be settling down. The directory is still /pub/idl. I have not been able to store the latest FAQ there at this time because the /pub/idl directory is no longer writeable. I'm waiting for a response to see if and when it will be writeable again. There is a one month old FAQ there now. Feel free to email me if you'd like the latest and I'll send it out. Please put something like "IDL FAQ" in the subject. Alternatively, rtfm.mit.edu keeps copies of FAQs, also. Alas, they have a limited number of users allowable, and I cannot check to see if the latest version is available through them.
