---

I'm thinking of writing a data acquisition system in IDL... but the cost of obtaining enough licenses to be able to take my instrument (an IR camera) from place to place may be prohibitive. So I'm trying to find the address (email or snailmail) or phone number of the makers of PV-Wave to see if they can offer a better deal.

Also, if anyone would be willing to say how they feel PV-Wave compares to IDL I'd be grateful to hear it.

Thanks in advance,

Chris
