OK, thanks to your replies, I managed to do what I wanted:

```
FOR i=0, OrbNum DO xtn[i]=STRING( $  
    OrbArra[i,0], OrbArra[i,12], OrbArray[i,13], $  
    FORMAT='(I0, "-", I0, "h", I2.2)' )
```

Which outputs something like "1234-14h30"

Now I'd like to have this result on 2 lines (instead of a '-' separator).

So I tried FORMAT='(I0, /, I0, "h", I2.2)'

But I get "Out of range subscript encountered: XTN"

Any idea ?
