Subject: map_set, displaying with 0 margin

hi,

has anyone found a way to display stuff with map set with no margin
around the map. Noborder gets rid of the drawn in border, and
X[y]margin just seem to always leave a little margin. I have also tried
using !p.region, !p.position and even !x[y].omargin, all to no success.
I just would lke the map to extend to the edge of the window.

 thanks for any information

 -stephen
