hi,

well, there has been a little discussion of late about the write_gif problems.
the good news is that RSI has fixed them.  The sporadic occurance of bad
gif files beeing created that is, and also we are told it runs about 6
times as fast.

Also, this fix should be available with version 3.6.1 we are told.

Thanks to the RSI poeple who tackled this little problem.

    -stephen
